

Most of our clients never see a customs form. We find and vet the producers, contract the trade, prepare every document and move the goods — under our own Abu Dhabi licence.

Dates, nuts, honey and saffron from our own trading line ship beside client mandates, held to the same standard: *what doesn't meet Embex standards doesn't ship.*

How we work

Provenance

Every lot we touch is traceable to its origin — grower, region, season — and documented to prove it.

Precision

Contracts, certificates and customs prepared right the first time. Trade fails on details; we own them.

Discretion

We operate behind our clients' names. Your suppliers, prices and volumes stay yours.

What we do

I Global resourcing

We identify, vet and negotiate with producers on your behalf — quality checks, sampling and supplier agreements included.

II Export management as a service

Certificates of origin, customs registration, compliance and shipping documents handled under our Abu Dhabi licence.

III Trading management

We operate your trading book — contracts, pricing, counterparty management and settlement — with full reporting.

IV Logistics support

Freight coordination from origin to destination port: booking, consolidation and tracking across sea and air.

V Warehousing, sorting & packing

Storage, sorting, grading and packing solutions for distributors — consolidation and preparation of goods for re-export.

VI Oil & gas field services

Support services for onshore and offshore fields and facilities, delivered with licensed regional partners.

How a mandate runs

01

Source & vet

Producers identified, sampled and qualified against your specification.

02

Contract & price

Negotiation, supplier agreements and pricing locked under clear terms.

03

Document & clear

Certificates of origin, customs and compliance handled under our licence.

04

Ship & settle

Freight booked and tracked to destination port; settlement reported in full.

Our own trading line

Dates

Khalas, Fard, Medjool and regional varieties — whole, pitted or pressed. Retail cartons or bulk, chilled or ambient.

Origin UAE, Saudi Arabia and Jordan

Grades Premium, Grade A, Industrial

Packing 250g–5kg retail, 10kg bulk

Nuts

Pistachios, almonds, cashews and walnuts. Sorted, graded and packed to buyer specification with lot-level traceability.

Origin Regional and global growers

Grades Sorted, Size-graded lots

Packing Vacuum, Cartons, Big bag

Honey

Raw, blended and monofloral apiary products with lab analysis and origin certificates on every consignment.

Origin GCC and regional apiaries

Grades Raw, Blended, Monofloral

Packing Jars, Drums, Private label

Saffron & spices

Saffron, whole and ground spices sourced through long-standing grower relationships across the region.

Origin Origin-direct growers

Grades Super Negin, Whole, Ground

Packing 1g–1kg retail, Bulk tins

What travels with the goods

Certificate of origin

Issued against every consignment under our own Abu Dhabi trade licence.

Customs & compliance file

Customs registration and compliance documents prepared and filed by our desk.

Grading report

The lot graded and sampled against your written specification before it ships.

Export & shipping set

Freight booked, consolidated and tracked from origin to destination port.
